Best practice to ensure safeguarding guidance is considered and understood by community groups and providers.

This workshop aims to:

Work with groups, workforce and volunteers to ensure that practice and engagement with children including supporting paperwork is robust to protect children and ensures clear concise recording that is in line with current Birmingham City Council Safeguarding frameworks.

Session Outcomes:

- Identify specific legal requirements and those of good practice including information around the new CASS system and DSL networks
 - Share statutory guidance that will support the meeting of these requirements
 - Audit practice and paperwork to identify gaps
- Action plan – individual and organization specific with opportunity to discuss the actions and how they can be achieved within a reasonable timescale.
